

CCBA SERIES

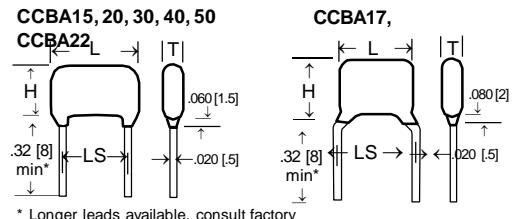

- Industry's widest range- 0.47pF to 10uF, tolerances to 1%
- Space-saving radial lead design
- COG (NPO), X7R, Z5U and Y5V temperature coefficients
- Tape and reel packaging available
- Standard industry sizes
- High voltage models available
- Cut and formed leads available

High-density multilayer construction enables superior performance and capacitance range. Proprietary flame retardant epoxy coating ensures optimum environmental protection and dielectric strength. Non-standard values, increased voltage ratings, custom marking, military screening, cut & formed leads, etc., are available. Matched sets and networks also available.
